MEMORANDUM FOR THE RECORD

SUBJECT: Engineering Lab of

25X1

25X1
1. told me this morning that they feel that the group which they now have assisting OCS might be useful on a broader basis to the Agency in working more directly on various engineering and analysis problems.

2. I broadly explained the types of computing activities in which we are involved, and suggested in particular that they might want to talk to ORD regarding the Intelligence Lab.

3. They left with me resumes of their backgrounds, plus resumes for several of the key people in the engineering laboratory. OEL may have some interest in their signal analysis capabilities.

4. I explained that OCS generally procures and maintains the computing equipment, and programming/engineering assistance in DD/S&T although the equipment and the people obtained might actually be used in other offices.

/s/

**Special Assistant to the
DD/S&T**

Distribution:

- 1 - For The Record
- 1 - OEL, ORD, OCS.
- 1 - DD/S&T through EO/DD/S&T
- 2 - DD/S&T Registry
